

Arizona Disciples Women
2021 Annual Spring Event

**No Rock Like Our God
Samuel 2:2**

**March 20, 2021
10:00 am-12:00 om
On Zoom**

Link will be sent out after you register

Registration Cost: \$10.00
Registration will open February 20, 2021 on the
Regional Website www.azdisciples.org

**Keynote Speaker:
Rev. Liz DeWeese
Pastor, First Christian Church Mesa**

Offering will go to local Food Banks in
Phoenix, Tucson, Prescott and Globe

We have an exciting program lined up:

- **an activity for you to do at home before the event**
- **Small group discussions on God as your Rock,**
- **And we want you to be part of it!**
- As Disciples Women, WE ARE COMMUNITY and it is understatement to say that we all miss gatherings in person. If you have been at Fall Retreat you are familiar with "Saturday Night" when we have had dances, contests, games, karaoke, talent shows. We've had cake walks, musical chairs, sock hops, and even a piñata. We laugh, connect, and enjoy just being with each other. My memories of those evenings was on my mind as I pondered what to do for our Spring Event. I wanted to be community, even in an online format. SO, in the spirit of Saturday night, we are asking each church to do this:
 1. Put together a performance piece of their choosing and design. It can be a single woman reading a piece or singing, multiple women doing an ensemble together, a skit or enactment of a story, parable, etc. It can be light and funny, playful, praiseful or prayerful, serious but hopeful.
 2. **You can choose any topic with the overarching theme of the pieces to be How is/has God been your Rock?**
 3. Time limit is 3 minutes.
 4. We request that your pieces be recorded ahead of time onto YouTube. This should work well and we will be sending clarification about that shortly.
 5. The videos are due on March 1.
 6. I would like to hear from you before then with your idea, and of course if you have any questions. Contact me at droceana@gmail.com

Thank you and let's have fun!

Oceana Rames, Disciples Women Table Coordinator
